

Commission on Monogenetic Volcanism Discussion

Commission Leaders: Károly Németh, Ian Smith, Adriann Pittari

https://vhub.org/groups/iavcei_cmv

Geological Society of London Special Publications “Monogenetic Volcanism”

<http://gslspecpubs.allentrack.net>

Karoly Nemeth, Gerrardo Carrasco Nunez, Jorge Aranda Gomes, Ian EM Smith

Deadline: 15 November 2015

Normal manuscript length BUT allow longer chapters especially the invited review articles

Regional aspects to provide some review on iconic monogenetic fields

Expected Publication Date in second half 2016

The book works with an on-line first system, so accepted chapters will be on-line after acceptance.

INVITATION

The Local Organizing Committee and the International Association of Volcanology and Chemistry of Earth's Interior (IAVCEI) will be pleased to welcome you to the 6th International Maar Conference (IMC) in Changchun (China) in 30 July–3 August, 2016. The Conference will have 4 days of themed oral and poster sessions and an intra-meeting field trip. The proposed sessions of the conference focus on **Maar and Environment Change**, covering a wide spectrum of very interesting topics including characteristics, mechanism, modeling and geological background of Monogenetic volcanic activities; volcanic evolution and spatial distribution regulation, resources, disaster, detecting, monitoring and societal responses of volcanic activity.

The website is now open:

<http://imc.csp.escience.cn/dct/page/1>

The Abstract Submission and Registration will be open soon!

Hope that many people will attend on the 6IMC in China!
